

# Cost & Sustainability challenges can be met with storage trailer use

Why use expensive warehouses? Storage trailers cost the equivalent of **4 cents/cubic feet per month**. When did your public warehouse last offer this rate? And unlike warehouses, **movable** storage assets allow you to stay closer to production lines.

- Get Sustainable**...wean your operations off energy-inefficient warehouses. Switch to low-carbon footprint storage trailers
- Get Green**...use our trailers to **sponsor a community recycling day** (only 24% of PET ever gets recycled)
- Lower your total product cost**, while being **more responsive to your customers**...trailers are 'supply-chain friendly' and ready-to-move

**Average trailers feature 475 square feet of space, at a fraction of typical storage cost**

- "Warehouse on Wheels" offers a cost-effective storage option -- by the month or year.
- Rent for as little as \$150 per month... or purchase outright at attractive pricing. Financing Available.
- Delivery & pickup available to one or more locations.

## GE knows Storage Trailers

- Knowledgeable & Solutions-oriented team
- 50+ years in Storage Trailer business
