

Jobsite Storage Trailer

Rentals & Sales

Licensed & FHWA Compliant for Highway Use

Gain productivity for your project with Jobsite Storage Trailers from GE. These sturdy assets are easy to move around a site as work progresses. They also keep supplies handy -- saving valuable time for your crew -- and your project.

With 70 branches coast to coast, forget long drayage delays to get the trailer you need quickly. And GE can assist you by delivering and picking up trailers at one or more locations.

For larger projects, several trailers dispersed around the perimeter can offer even more convenience. Rather than trudging across uneven ground with bulky equipment or tools, workers have close access to the supplies they need most often, reducing the risk of injury from falls.

48 foot Flatbeds

Spring Ride or Air Ride

Protect jobsite equipment & supplies from theft and the weather with durable storage trailers from GE. Competitive rates, reliable equipment, and over 50 years of trailer know-how...all from a company you can trust for dependability *and* service, GE.

48 or 53 foot Dry Vans*

Spring Ride or Air Ride
Swing door or Roll door

*Reefers and other van types also available

- Common uses & benefits include:
- > Weather & Theft protection for steel bars & racks, tools, supplies & concrete bags;
 - > Flexibility to use multiple trailers: one for each phase of construction;
 - > Avoidance of the "double-handling" associated with ground storage; and
 - > Movement of materials from "Site A" to "Site B."

One toll-free call to our national Customer Care Center can get you squared away, no matter where you're located!
